Note: We reserve all the right for the final explanation about Free Foscam Cloud Plan

Long Lasting Rechargeable Battery

- Long lasting battery life allows you to keep an eye on what matters most anytime, even if you're away from the camera for an extended period.
- You can check the battery status conveniently right from the Foscam App.
- Rest assured knowing that when the battery needs to be charged, notifications will be sent right to your smartphone.

Note: Foscam E1 uses 5000mAh rechargeable battery. Battery life varies depending on settings, usage, and operating temperature.

Full High Definition 1080P Live View & Playback

- 1080P Full HD video enables you to view your home more clearly.
- You can view Live or Playback and talk with your family anywhere using the free Foscam App from your smartphone.

Two way audio

Playback

Accurate Motion Detection

A wide-angle Passive Infrared (PIR) sensor detects moving heat objects, such as human and animals. Foscam E1 will record the movement then and send a snapshot push notification right to your smartphone.

Attention: The moving of objects, such as plants and curtains, won't trigger recordings.

Snapshot Push

Accurate Motion Detection

Easier and Smoother Network Connection

- Setting up your Foscam E1 is simple. Your camera comes paired with the E1 Base Station - just scan the QR code with your smartphone and you're all set!
- Adding additional cameras to your E1 Base Station is just a tap away with the convenient sync button pairing option.
- Connect USB storage to the Foscam E1 Base Station to save recordings locally.
